Lawrence Hargrave Private Hospital

Lawrence Hargrave Private Hospital is a modern 54 bed private rehabilitation, medical and palliative care facility set in the bushland setting of Thirroul, 10 kilometres north of Wollongong. The hospital boasts sweeping ocean views, a recently renovated eighteen-metre hydrotherapy pool, a fully-equipped physiotherapy gymnasium, an occupational therapy treatment area and workshop, as well as nicely appointed rooms.

Lawrence Hargrave Private Hospital has a highly experienced team of professional and caring staff, dedicated to providing the best possible care and attention. Our rehabilitation programs are designed around individual needs ensuring all our patients achieve their desired outcomes in a timely, safe and comfortable manner. Programs at Lawrence Hargrave Private Hospital are offered on an inpatient, day patient and outpatient basis.

Lawrence Hargrave offers the following services:

- Amputee Rehabilitation Program
